

## MULTI-PURPOSE SPEAKER MIC AND PUSH-TO-TALK

IP56 RATED WATERPROOF &  
NOISE CANCELLATION

**Model:** XSMP & XSMP-HV

### Product Description

The CanCom XSMP offers crystal-clear communication with its noise-canceling microphone, effectively reducing wind noise from remote speaker microphones to deliver high-quality audio. It features a customizable audio socket compatible with Peltor, Savox, and NATO-wired headsets. Its skid-proof design ensures a comfortable grip, even when gloves are worn, making it ideal for applications requiring durability. The XSMP is especially suited for police motorcyclists and firefighters, built to withstand harsh and hazardous environments.

### Product Features

- Dual PTT design with top and front tactical Push-to-Talk buttons, both protected by grooves to prevent accidental activation.
- Top-mounted Nexus Jack for easy integration with your choice of two-way accessories, such as headsets.
- Durable, rubber-sealed housing designed for heavy-duty use in wet environments (IP56 rated).
- Large front Push-to-Talk button (also a speaker) is easily accessible even when wearing gloves.
- Customizable Nexus audio socket compatible with Peltor, Savox, and NATO-wired headsets and other accessories.
- Front and side Push-to-Talk buttons available in customizable colors: Neon/HiViz (XSMP-HV), Red, Orange, or Military.
- Strong, large reinforced 360° swivel clip for secure attachment.
